

# Teaching music has changed.

**In today's music programs, there is heightened expectation for engagement, assessment, accountability and differentiated learning.**

## **WHAT IF YOU COULD:**

- Assign and assess almost any kind of musical activity or content
- Customize assignments per student
- Direct student learning outside of class
- Enable students to work on any device at any time
- Have the results automatically fill your gradebook

***"...a game-changer for any music program!"***

Backed by one of the world's largest sheet music publishers, a group of music educators created a new concept...

# The MusicFirst Online Classroom Platform

*Customize the largest, most powerful array of cloud-based music education tools to fit your needs.*

## MUSICFIRST ONLINE CLASSROOM

The MusicFirst Online Classroom is the hub for the largest suite of music software in the world. A music-centric learning management system (LMS) that integrates software and content, its gradebook and content-delivery system were designed by music educators.

- Easy, intuitive, versatile
- Customized assessments
- Automatically grades many assignments
- Presents other assignments for teacher evaluation such as student recordings
- Assign and share any content to students: Audio files, videos, tests, assessments, lessons, PDFs
- Create student portfolios with one click
- Use computers, Chromebooks™, tablets, or smartphones

## CLOUD-BASED SOFTWARE MEANS:

- Access for teachers and students on any internet-enabled device; anywhere, anytime
- No upgrades to buy or install – software is constantly updated
- No school server space is used
- No reliance on IT department
- Safe and Secure: COPPA and FERPA compliant

*“The organization aspects of the calendar are wonderful!”*
